Contents of Volume 12 1990

Number 1 1990
Special Issue: Magnetic Materials

Newsline 1

Calendar 5

Editorial 9

K. Ueno, N. Takahashi, and T. Nozawa
The Latest Advance in Very Low Core Loss Grain Oriented Silicon Steels 11

A.I.C. Persiano and R.D. Rawlings
Effects on Some Physical Properties of Soft Magnetic Fe–Co Alloys due to the Replacement of Vanadium by Niobium 21

V. Panchanathan and J.J. Croat
Properties of Rapidly Solidified Nd–Fe–Co–B Alloys 29

C.H. Smith
Terawatts and Nanoseconds—Metallic Glasses in Pulse Power Systems 35

A. Honda, B. Fukuda, I. Ohyama, and Y. Mine
Effects of Magnetic Properties of Nonoriented Electrical Steel Sheets on Motor Efficiency 41

P. Beckley
New Initiatives in the Assessment of Surface Insulation Resistance of Coatings on Electrical Steels 47

K.C. Lin, E.E. Zook, and J.W. Crockett
Material Usage in Stacked Transformer Cores 51

J.M. Glass, H.P. Groger, R.J. Churchill, and E.M. Norin
Laser Cutting of Amorphous Alloy Ribbon and POWERCORE© Consolidated Metal Strip 59

E.T. Stephenson
The Effects of Decarburization Annealing on the Microstructure and Magnetic Properties of Semiprocessed Motor Lamination Steels 69

Instructions to Authors on page iv

Indexed in *Current Contents*, *Metal Abstracts*, *Engineered Materials Abstracts*, and *World Aluminum Abstracts*

Number 2 1990

Newsline 85

Calendar 88

A.S. Kim, V.K. Chandhok, and E.J. Dulis
Hot Extrusion Process for Nd–Fe–B Magnets 93

R.K. Knipe
Domain Refinement of Grain-Oriented 3%Si–Fe via Electron Beam Scribing 101

M.A.J. Somers and E.J. Mittemeijer
The Rise and Fall of Stress in Thin Layers; The $'$–Fe_4N_{1-x} Layer as a Model 111

D. Sunil, V.D. Vankar, and K.L. Chopra
Infrared Studies of Amorphous Carbon Films Formed by Plasma Decomposition of Acetylene 121

J.D. Verhoeven, W.A. Spitzig, L.L. Jones, H.L. Downing, C.L. Trybus, E.D. Gibson, L.S. Chumbley, L.G. Fritzemeier, and G.D. Schnittgrund
Development of Deformation Processed Copper–Refractory Metal Composite Alloys 127

J.I. Federer
Alumina Base Coatings for Protection of SiC Ceramics 141

C.C. Berndt
Tensile Adhesion Testing Methodology for Thermally Sprayed Coatings 151

D.E. Bunnell, S. Liu, and D.L. Olson
Low Hydrogen SMAW Electrode Moisture Content Determination Using Electrical Capacitance 159

J.-L. Yeh, H.-J. Lin, C.-L. Chou, and W.-S. Hwang
Fluid Flow Modeling in Slab Tundishes 167

Instructions to Authors on page iv

Indexed in *Current Contents, Metals Abstracts, Engineered Materials Abstracts,* and *World Aluminum Abstracts*

Number 3 1990

Newsline 177

Calendar 182

H.H. Stadelmaier
Summary of Magnet Development in the Past Two Years 185

A.J. Moses
Some Effects of Core Geometry on Building Factors of Transformer Cores Assembled from Powercore© Strip 195

G.D. Wooten and D.W. Stahura
Application of Neodymium–Iron–Boron (Nd–Fe–B) Magnets 203

J.D. Whittenberger
Tensile Properties of HA 230 and HA 188 after 400 and 2500 Hour Exposures to LiF-22CaF_2 and Vacuum at 1093 K 211

U.K. Mudali, S. Venkadesan, and J.B. Gnanamoorthy
Intergranular Corrosion Studies on Warm Worked Type 316 Austenitic Stainless Steel 227

I.-O. Shim and J.G. Byrne
Microstructural Response of 4340 Steel to Hydrogen Charging 235

J.R. Keiser, D.F. Wilson, J.N. Hines, and A.V. Levy
Response of Aluminum Alloys to Multiple Particle Impacts 245

Instructions to Authors on page iv

Indexed in *Current Contents, Metals Abstracts, Engineered Materials Abstracts,* and *World Aluminum Abstracts*

Number 4 1990

Newsline 251

Calendar 255

R.J. DiMelfi
A Model for the Deformation Behavior of Amorphous Alloys with Application to the Wear Loading of the Film-On-Substrate Geometry 257

J. Zhang, Y. Liu, D. Venugopalan, and P.K. Rohatgi
The Stress Field Induced by Contact with Asperities 271

R.J. Barnhurst
Designing Zinc Alloy Bearings 279

Y. Ballout and J.E. Talia
Surface Instabilities: Effect on Erosion Ripple Formation 287

A.R. Rosenfield
A Model of Sliding Wear of Ceramics 295

A. Chen, X. Qiu, J.R. Conrad, R.A. Dodd, F. Vorzala, and J. Blanchard
Wear Modeling for Nitrogen-Implanted Ti–6Al–4V 299

A. K. Meikap, A.R. Jana, S.K. De, and S. Chatterjee
Localization Effects in Disordered Thin Zinc and Tin Films at Low Temperature 305

Y. Takeda, Y. Odani, T. Hayashi, and K. Akechi
Process and Properties of PM AL–Si–X Alloys 311

Index to Volume 12 319
